Concierge Private Caregiver and Nursing Services = Peace of Mind

If your **elder law practice** includes guardianship responsibilities or advising clients who need home care, you'll need a talented, well matched, legally hired care team. Holistic HomeCare Associates' model of an employment placement agency — a hybrid between a home care agency and a private hire model — is especially advantageous for guardians.

As a **guardian**, you have many ward responsibilities that require your time and attention. Let us help relieve you and your clients of the stress around elder home care, so your valuable time is focused where you want it to be.

Complete Client Support

You'll meet the **highest quality candidates expertly matched** to your client's needs. Our rigorous vetting process involves **background checks, reference checks, and multiple interviews**. Our caregivers keep a larger percentage of the paid hourly rate, so we attract the best in the business.

A **directly employed caregiver** can perform many more care-related tasks than an agency worker. We set you or your client up as the employer and provide all the back-end support, including **payroll, workers' compensation, unemployment insurance, and financial reports**. We also offer free **long-term-care-insurance claims support**.

If your client needs more **skilled care**, our **registered nurses** are available at short notice on a shift or house-call basis.

“

As an elder care attorney, I have used Holistic HomeCare Associates on a number of complex cases, some with very significant medical needs. They are able to adapt to rapidly changing sets of circumstances, and their caregivers are a step beyond the norm. With their participation, we have been able to deliver excellent end-of-life care for many clients.” —Brian R., elder law attorney
